

Ex. No. 3: Create a simple cloud software application for Property Buying & Rental process (In Chennai city) using any Cloud Service Provider to demonstrate SaaS.

Aim:

To create a simple cloud software application for Property Buying & Rental process (In Chennai city) using any Cloud Service Provider to demonstrate SaaS.

Procedure:

Step 1: Go to zohocreator.com.

Step 2: Log into zohocreator.com.

Step 3: Select one application step.

Step 4: Enter application name as Property Buying & Rental.

Step 5: Created a new application Property Buying & Rental.

Step 6: Select one form

Step 7: The software has been created.

Implementation:

The screenshot displays the Zoho Creator application builder interface for a form titled "Property Buying & Rental". The interface is divided into several sections:

- Basic Fields:** A sidebar on the left lists various field types: Name, Email, Address, Phone, Single Line, Multi Line, Number, Date, Time, Drop Down, Radio, and Multi Select.
- Form Builder:** The central workspace shows a form with the following fields:
 - Sales ID (Text field)
 - Name (Text field, highlighted with a blue selection box)
 - Mobile Number (Text field)
 - Email Id (Text field)
 - Date (Text field)
 - Two text areas labeled "Your notes content will be shown here"
 - Address (Text field)
 - Address (Text field, with a red asterisk indicating a required field)
 - An "Add Items" section containing:
 - S.No (Text field)
 - Item Name (Text field, with a red asterisk)
 - Unit Price (Text field)
 - Quantity (Text field, with a red asterisk)
 - Total Cost (Text field)
- Field Properties:** A sidebar on the right provides configuration options for the selected "Name" field:
 - Field name:** Name
 - Field link name:** Name
 - Validation:** ☒ Mandatory
 - Display Fields:** ☐ Prefix, ☒ First Name, ☒ Last Name, ☐ Suffix
 - Data Privacy:** ☐ Contains personal data (PII)
 - Data Security:** Data encryption is not supported.

The bottom of the interface includes a status bar with a trial expiration notice ("Trial expires in 15 days"), an "Upgrade" button, and a "Get started faster" link.

The screenshot displays a web-based application for property management. The top navigation bar includes a menu icon, the title 'Property Buying & Rental', and tabs for 'Design', 'Workflow', and 'Settings'. A status bar at the top right shows 'Upgrade', a bell icon, and 'Access: Development Live'. The main workspace is divided into three sections: a left sidebar, a central form, and a right-hand customization panel. The sidebar contains a 'Property Buying & Rental' header and two buttons: 'Add Sales' (highlighted in blue) and 'Sales'. The central form, titled 'Add Sales', contains a 'Date' field with a date picker, a 'Billing Address' section with 'Address' and 'Address Line 1' fields, and a 'Shipping Address' section with similar fields. Below these are 'City / District', 'State Province', 'Postal Code', and 'Country' dropdowns. The 'Add Items' section features a table with columns 'S.No', 'Item Name', 'Unit Price', 'Quantity', and 'Total Cost', and an '+ Add New' button. The right-hand panel, 'Form Customization - Web', shows 'Label placement' options with various input field configurations. The bottom status bar indicates 'Trial expires in 15 days', 'Upgrade' options, and a 'Get started faster' button.

Result:

Successfully created a simple cloud software application for Property Buying & Rental process (In Chennai city) using any Cloud Service Provider to demonstrate SaaS.
