

**Ex. No. 1:** Create a simple cloud software application and provide it as a service using any Cloud Service Provider to demonstrate Software as a Service (SaaS).

**Aim:**

To create a simple cloud software application and provide it as a service using any cloud service provider to demonstrate software as a service (SaaS).

**Procedure:**

**Step 1:** Go to zohocreator.com.

**Step 2:** Log into zohocreator.com.

**Step 3:** Select one application step.

**Step 4:** Enter application name as booking movie tickets.

**Step 5:** Created a new application booking movie tickets.

**Step 6:** Select one form

**Step 7:** The software has been created.

**Implementation:**

The screenshot shows the Zoho Creator application builder interface. On the left, there's a sidebar titled 'Basic Fields' containing icons for Name, Email, Address, Phone, Date, Time, Number, Drop Down, and a few others. In the center, a form titled 'Booking-Movie-Ticket User Details' is being edited. It contains fields for 'Name' (with a placeholder 'Email'), 'Phone', 'Date', 'Time', 'Number', and 'Drop Down'. To the right, a 'Field Properties' panel is open, showing settings for the 'Name' field, including 'Field name: Name', 'Field link name: Name', and 'Validation: Mandatory'. Below this are sections for 'Display Fields' (with 'First Name' checked) and 'Data Privacy' (with 'Contains personal data [P]?' checked). At the bottom, there are buttons for 'Done', 'Upgrade', 'Get started faster!', and 'Help'.

The screenshot displays a web-based application interface for managing movie ticket bookings. The main window shows a form titled "Booking-Movie-Ticket" under the "User Details" section. The form contains fields for Name (First Name and Last Name), Phone (with a dropdown for country code "+91" and number "81234 56789"), Email, Date (dd-MMM-yyyy format), Time (HHmmss format), and a Drop Down menu. A "Submit" button is at the bottom. On the left, a sidebar shows navigation links: "User Details" (selected), "User Details", and "All User Details". On the right, a panel titled "Form Customization - Web" provides options for "Label placement" with four grid-based layout examples. The bottom of the screen shows a footer with trial information ("Trial expires in 15 days"), upgrade options, and help links.

## Result:

Successfully created a simple cloud software application and provided it as a service using any Cloud Service Provider to demonstrate Software as a Service (SaaS).
